

# THE DIFFERENCE IN BEARING PROTECTION

*The Inpro/Seal® "VBX" Bearing Isolator, with its unique internal O-ring, provides an effective vapor barrier.*

Effective bearing protection in motors and pumps has always been a tricky matter: lip seals are extremely unreliable; ordinary labyrinth seals fail to protect from steam and humidity; magnetic seals wear out in a relatively short time.

Inpro/Seal® comes to the rescue with its patented "VBX" (Vapor Barrier) Bearing Isolator. The unique internal vapor-blocking O-ring provides infinite life and absolute protection from contamination, including steam, humidity and condensation. The "VBX" Bearing Isolator won't wear on the shaft, and its design-life exceeds even the bearings it protects. Inpro/Seal® guarantees that the "VBX" will at least double the reliability of your rotating equipment. The Inpro/Seal® "VBX" is a truly different, truly superior product--the comparison below proves it.

Call Inpro/Seal® Company today for more information.

	Lip Seal	Labyrinth Seal	Magnetic Face Seal	Vapor Block Seal
<b>Life Expectancy</b>	3000 Hours	Infinite	2 Years	Infinite
<b>Causes Shaft Damage</b>	Yes	No	No	No
<b>Re-Usable</b>	No	Yes	No	Yes
<b>Requires Adding Oil (Leaks Out)</b>	Yes	No	No	No
<b>Bearing Bracket Vented</b>	Yes	No	Yes	No
<b>Protects Bearings From: Wash-Down</b>	*	Yes	**	Yes
<b>Dust / Dirt</b>	*	Yes	Yes	Yes
<b>Steam</b>	No	No	Yes	Yes
<b>Humidity</b>	No	No	Yes	Yes
<b>Condensation</b>	No	No	Yes	Yes
<b>Dry Running Grease Lubricated</b>	Yes*	Yes	No	Yes
<b>Oil Mist Containment</b>	*	No	Yes	Yes

\* to 3000 hrs. / vent

\*\* except high pressure--perpendicular to shaft
